

**Curriculum Vitae
Martin Bettag
Professor of Neurosurgery**

Martin Bettag, MD (Professor of Neurosurgery), born July 10th, 1959

Hospital of Barmherzige Brüder Trier, Head of the Department of Neurosurgery

Martin Bettag has been Professor of Neurosurgery and Head of the Department of Neurosurgery at the Hospital of Barmherzige Brüder Trier, Germany since January 2000.

He studied medicine in Duesseldorf and London, UK. He finished his neurosurgical residency training and received his PhD in neurosurgery at the University of Duesseldorf in 1993.

From 1995 - 1999, he was Associate Professor and Vice Chairman at the University of Mainz under the direction of Axel Perneczky. His scientific focus is on minimally invasive brain tumor surgery, including endoscopic techniques. Since 2005, Prof. Bettag has been director of many national and international training courses for endoscopic transnasal skull base surgery and key-hole approaches in neurosurgery.
